

RENNOVA SOLUTIONS

TRUSTED AUTOMATION PARTNER ACROSS INDUSTRIES

PRECISION **AUTOMATION** FOR
MISSION-CRITICAL TESTING.

TRUSTED BY LEADING INDUSTRIES.

2010
Inception

15+
Years Expertise

250+
ATEs Delivered

WORLDWIDE
Coverage

AUTOMATION | TESTING | EV SOLUTIONS | ENGINEERING SERVICES

An ISO 9001:2015
Certified Company

LEADING AUTOMATED TEST
EQUIPMENT MANUFACTURER
FOR OEMs AROUND THE GLOBE

Rennova Solutions

Trusted Automation Partner Across Industries

ABOUT US

Rennova Solutions is a technology-driven engineering company specializing in Embedded Electronics, Automated Test Equipment and EV Solutions. Since our inception in 2010, we have been delivering innovative, reliable and high-performance products that empower industries and drive progress.

With strong in-house engineering capabilities, a commitment to quality and a customer-centric approach, we develop solutions that are precise, efficient and future-ready.

OUR MISSION

To deliver innovative and reliable solutions that create value and drive success.

OUR VISION

To be a global leader in engineering solutions, recognized for innovation, quality and excellence.

OUR VALUES

Integrity
Innovation
Quality
Customer Focus

OUR COMMITMENT

Building long-term partnerships through quality, trust and continuous improvement.

Hardware Design

Software Development

Mechanical Engineering

System Integration

CUSTOM PCB DEVELOPMENT AND PRECISION ENGINEERING FOR HIGH-PERFORMANCE SYSTEMS.

INTUITIVE SOFTWARE, AUTOMATED TESTING, AND SEAMLESS HARDWARE INTEGRATION.

ENGINEERING TODAY. EMPOWERING TOMORROW

Rennova Solutions

Trusted Automation Partner Across Industries

OUR LOCATIONS

STRONG ROOTS. STRATEGIC PRESENCE.
DRIVING INNOVATION. DELIVERING EXCELLENCE.

Certified Company

OUR ATE TYPES

Rennova Solutions designs and manufactures a wide range of Automated Test Equipment (ATE) for automotive, electronics and industrial applications. Our test solutions ensure precision, reliability and performance at every stage of production.

ENGINEERING EXCELLENCE.
RELIABLE SOLUTIONS.
STRONGER TOMORROW.

Our ATE solutions are built with advanced technology, robust design and a commitment to deliver unmatched quality for mission-critical testing.

Certified Company

OUR CLIENTS

TRUSTED BY INDUSTRY LEADERS. DRIVEN BY EXCELLENCE.

ENGINEERED FOR EXCELLENCE.
PROVEN BY PERFORMANCE.

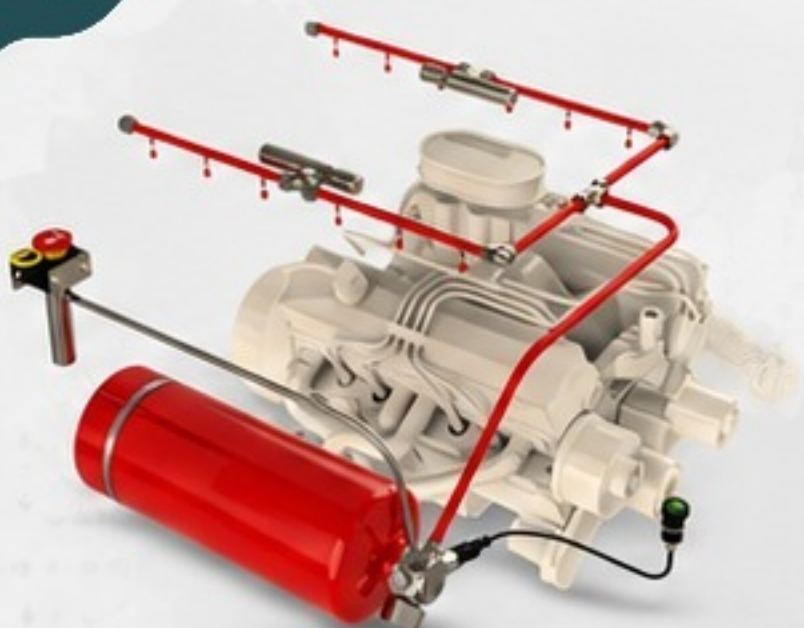

TOGETHER, WE ACHIEVE MORE.
25+ Leading Companies Across Industries

OUR PRODUCTS

Engineered for Performance. Designed for Reliability.

1

AUTOMATIC FIRE DETECTION & SUPPRESSION SYSTEM

Advanced fire detection and automatic suppression solutions for enhanced safety and protection.

2

U-SHAPED PHOTOELECTRIC SENSOR

Reliable photoelectric sensing technology for accurate and responsive detection applications.

3

BATTERY CELL SIMULATOR

Programmable battery cell simulation for precise testing and validation of battery-powered systems.

4

PORTABLE BATTERY DISCHARGER & CYCLER (CDC)

Portable solution for controlled battery discharge, cycling, and performance evaluation.

5

VEHICLE CONTROL UNIT (VCU)

Advanced vehicle control electronics designed for reliable monitoring, control and automotive applications.
